Fully Remote Supervised Virtual Parenting Time

Virtual visits take place via **Microsoft Teams** from pre-approved locations. Each session is **30 minutes**:

- **10 minutes** for staff to complete device checks with each party
- **20 minutes** for the virtual visit between the visiting parent and children

Process Overview:

1. The visiting party logs in first for a device and environment check (private, child-appropriate space).
2. After the check, the visiting party logs off. The residential party logs in with the children for their device check.
3. Once complete, the visiting party receives a new link to begin the virtual visit.

The York Supervised Parenting Time Program offers virtual visits **every other Saturday**, except during program closures (e.g., holiday weekends or scheduled staff training). In those cases, visits are rescheduled to the following Saturday.

A **mutually agreed-upon support person** may be required to assist younger children during virtual visits to help ensure their safety.
